

Global Experimentation for Future Internet - 2019

Thursday 07 November 2019

Edge Computing: Lightning talks - Aqua room (14:00-15:09)

time	[id] title	presenter
14:00	[59] A Knowledge-Defined Platform for Real-Time Management of Transmissions and Computations at Network Edge	ESPOSITO, Flavio
14:07	[21] Accelerating Network Function Virtualization and Service Function Chain Processing for Emerging 5G Services and Edge Computing	ZHANG, Zhi-Li
14:27	[17] Dynamic Edge/Cloud Computation Offloading and Control for Drone Video Analytics	CALYAM , Prasad
14:34	[60] Edge Computing and EdgeNet: A Worldwide Edge Cloud	FRIEDMAN, Timur
14:41	[74] The Notebook: A Testbed Configuration and Programming Environment	MCGEER, Rick
14:48	[63] Towards a Secure and Flexible Personal Data Platform on the Edge	NADEEM, Tamer
14:55	[2] FABRIC and International Testbed Collaboration	RUTH, Paul
