

Global Experimentation for Future Internet - 2019

Friday 08 November 2019

Wireless Research Infrastructure - Part II: Lightning talks - Aqua room (09:00-10:00)

time	[id] title	presenter
09:00	[69] AI enabled radios for dynamic spectrum sharing	VERMEULEN , Brecht
09:07	[70] Towards Highly Reliable Low Latency Broadband (HRLBB) Communications over Wireless Heterogeneous Networks	SAAD, Walid
09:14	[71] Some thoughts on current and future experimentation needs	GREGORATTI, David
09:21	[18] Simulating Network Coexistence of NR-U and IEEE 802.11ax in ns-3	ROY, Sumit
09:28	[16] NITOS testbed: a heterogeneous environment for 5G and beyond experimentation	MAKRIS, Nikos
